Computer Science Student
Higher Institute for Computer Science & Information Systems (New Cairo Academy)
2024 – Present

PROFESSIONAL EXPERIENCE

Ice Code - Suez **May 2026 – Present**

Application Support Specialist (Freelance)

- Provided application support for IceCafe POS, helping users keep daily operations running.
- Logged, categorized, and prioritized support tickets by business impact and urgency.
- Troubleshot SQL, database connectivity, data inconsistency, and login/authentication issues.
- Reproduced bugs, collected logs, performed root cause analysis, and escalated to developers.
- Validated fixes, documented incidents and recurring issues, and kept customers updated.

DSC Egypt - Remote **Oct 2026 – Present**

Cyber Security Track Mentor

- Mentored cybersecurity interns across assigned squads in an 8-week software-house simulation.
- Reviewed GitHub PRs and task submissions, giving actionable feedback on code and security.
- Led technical sessions and office hours on cybersecurity concepts and practical exercises.
- Tracked intern progress and troubleshooting, and contributed to weekly program reports.

Industrial Company - Ain Sokhna District ,Suez **Jan 2024 – Jul 2026**

IT Technical Support Specialist (Outsourced)

- Resolved 15–20 IT support tickets weekly, escalating complex issues.
- Configured and deployed 100+ employee computers and IT devices.
- Supported Active Directory, Microsoft 365, and Intune enrollment.
- Troubleshot Windows issues using system logs and Sergei Strelec Toolkit.
- Assisted with network installations, connectivity, and troubleshooting.
- Managed IT inventory, including cables, access points, racks, and accessories.
